SKILLS

AI / ML : LLMs & Agentic Systems • LangChain • RLHF • NLP • Neural Networks • Computer Vision (OpenCV) • Time Series
Programming: Python (PyTorch, TensorFlow, Pandas, Scikit-learn) • SQL • TypeScript • JavaScript • Swift (iOS) • R • C++
Backend & Infra: FastAPI • PostgreSQL • MongoDB • Supabase • Azure • AWS • GCP • GitHub Actions • Docker • Vercel
Developer Tools: React/Next.js • Expo (React Native) • Jupyter • Stripe • Sentry • CodeRabbit • Git/GitHub • macOS/Linux
Product & Analytics: A/B Testing • Databricks • Tableau • Excel • Linear • JIRA • PostHog • Openrouter • Hugging Face

WORK EXPERIENCE

- PricewaterhouseCoopers (PwC)** **Los Angeles, CA**
Associate, AI & Data Solutions – AI Product & Data *June 2025 - Present*
- Engineered and deployed an LLM-powered client delivery platform using React, LangChain, Anthropic API, and Azure/AWS, reducing deliverable production time from ~8 hours to 45 minutes through reusable agentic workflows
 - Designed AI-driven customer analytics dashboards integrating Databricks Delta Lake pipelines and LLM-based parsing for a \$100B+ Financial Services client, reducing manual synthesis by 60% across 100K+ customer records
 - Created a financial carveout engine with PyTorch, SQL, and OCR pipelines to extract and reconcile data across 500+ legal/financial docs, supporting 3 PE diligence deals totaling \$800M+ and reducing manual data extraction by ~70%
 - Drove AI innovation within Deals by integrating AI-native SOPs, boosting team throughput by ~200% across 15 members
- Zeta Global** **San Francisco, CA | New York City, NY**
Generative AI Product Intern – AI Agents & Zeta Opportunity Engine *June 2024 - August 2024*
- Automated a GPT feedback system using RLHF, improving AI agent response accuracy by 10% across client BI workflows
 - Developed a real-time retrieval interface between GenAI agents and LLM systems, reducing team debugging time by 25%
- Data Science & Analytics Intern – GTM Analytics** *June 2023 - August 2023*
- Collaborated with NYC and Prague teams on GTM ad campaigns, analyzing 50M+ garment sales records in Python/SQL to model customer purchasing behavior, driving product and operational changes that improved monthly P&L by 8%
- Clear (from ClearTax)** **New Delhi, India**
Product Strategy & Analytics – FinTech SaaS Products *January 2024 - June 2024*
- Partnered with Business Ops team to modernize and simplify web app UI/UX, boosting net customers acquired by ~15%
 - Built a Python NLP model to extract tax data from images and PDFs with 68% accuracy across Clear's 130M-user platform

PROJECTS

- Vault** – Founder; Product Engineer - Currently Building | [Link](#) *December 2025 - Present*
- Shipped a full-stack AI platform for agentic ideation, task-planning and execution built on Next.js, Supabase, and Vercel
 - Architected core systems across auth, data models, agent flows, billing (Stripe), analytics, and product UX from 0 to 1
- Ionava** – Financial Health & Wellness Platform backed by Angel Investors | [Link](#) *September 2025 - Present*
- Launched a production full-stack platform, owning frontend architecture, backend services, data layers and security
 - Built stateful user flows and API integrations for financial-health planning, Health Score and Wellness Wallet functionality
- Wist Health** – B2B mental-health AI solutions under the Larta Heal.LA 2025 accelerator | [Link](#) *January 2025 - June 2025*
- Engineered a web and iOS AI wellness app with adaptive UX and personalized support flows, published via App Store
 - Implemented LLM-powered conversational workflows and session state management for guided user reflections
- DataRes Consulting** – Pro-bono data consulting for local businesses | [Link](#) *September 2021 - March 2024*
- Real Estate client: Led team of 7 to build data-driven valuations for Zillow live listings using NLTK and sentiment analysis
 - EdTech platform: Identified a 20% revenue uplift opportunity by analyzing user perks and ad timing across 7000+ users

EDUCATION

- University of California, Los Angeles (UCLA)** **Los Angeles, CA**
B.S. in Statistics and Data Science; B.A. in Business Economics (Double Major) *September 2021 - June 2025*
- GPA: 3.8/4.0 | Dean's Honor List (2022-2025) | William F. Sharpe Fellow | Start-Up Nation Fellow
 - Honors**: \$10K GenAI & Health Innovation Grant; Innovate@UCLA Tech Challenge (1st); FBRC.ai x Luma AI Hackathon (2nd)
